This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

2. In marking the equipment of battalions, the battalion number will be placed before the county name or regimental letters on the valise, and before the abbreviations on the rest of the equipment, thus:—1. LOTHIAN—1. Lo., for the 1st Battalion of The Royal Scots (Lothian Regiment). The arms, accoutrements, musical instruments, &c., of Regimental Depôts will be marked with the number of the Regimental District, followed by the letters R.D., but the Depôt clothing and necessaries will be marked as in battalions, omitting only the battalion number. The Rifle Depôts having no numbers, the equipment remaining on charge at the depôts will receive the Territorial letters, with the letter D following.

3. The Militia Battalions will be distinguished from those of the Regular Army by the battalion number, and further, by the letter M., which (without the battalion number) will be placed upon the tunic or frock only; thus:—Lothian M., on the tunic and frock, will denote a *Militia* battalion of the Lothian Regiment; 3. Lothian on the valise, and 3. Lo. on the rest of the equipment will denote the 3rd Battalion, or the first *Militia* Battalion, of the same.

4. The undermentioned stamps, &c., will be used in marking the equipment, and Officers Commanding Battalions and Regimental Districts will, at once, put forward requisitions for such as they severally require. A portion of the stamps required being already in their possession, Commanding Officers will demand only those necessary to complete, and any stamps in possession, of descriptions not herein detailed, will be returned into store, as also

the leather shields and numerals hitherto employed for distinguishing the valises. The existing ½-inch copper inlaid, and the ¼-inch gunmetal letters, being unsuited for use with the type-holder, should all be returned into store.

† The letters R.D. will be issued on demand for the use of Armourers employed in marking the arms of Regimental Districts.

‡ These stamps will be issued on loan, as required, under paragraph 428 of Equipment Regulations.

5. Commanding Officers in making requisitions will be careful to demand the proportions of large and small letters strictly in accordance with the regimental abbreviations detailed in § 1. All initial letters should be of the larger size; the terminal, or others, of the smaller. Thus, the "Highland Light Infantry" would require the initials, H.L.I., all of the larger size, while the "Lothian" Regiment would require the combination of large and small letters in the abbreviation LO. Similarly, N^N (Northampton); LEIC. (Leicester). A set comprises one letter of each kind required.

6. When in use, the block figures and letters which mark with paint or ink will be set in the type-holder, which is supplied, in order to ensure uniformity and rapidity in marking.

7. As only one size of holder is issued, it is accompanied by three small wooden blocks to pack-in the smaller type. These blocks, if lost, must be regimentally replaced.

8. The paper stencil-plates will be cut with the required Territorial names or letters and battalion numerals by the Ordnance Store Department, Royal Arsenal, Woolwich, and will be issued thence to corps. The plates will be prepared for marking as described in paragraph 13.

9. The following allowances will be granted for re-marking the equipment of the Infantry of the Line.

a. The sum of 9*d.* for every 300 water bottles, or straps for the same; or every 300 ammunition bags, waistbelts, braces, white haversacks, pouches, straps, and the insides of the flaps of valises, under paragraph 447, Equipment Regulations, 1881.

b. The sum of 9*d.* for every 300 frogs and slings for rifles.

c. The sum of 1*d.* per valise for marking the outside of the flap with white paint, using the stencil plate and brush.

d. The sum of 4*d.* for re-marking each squad bag, under paragraphs 456 and 457, Equipment Regulations, 1881. This allowance will cover any expense attending the removal of old marks, which may readily be done with a little turpentine and a piece of rag.

10. The above allowances will cover both labour and the cost of paint or ink expended. (*Vide* paragraph 409, Equipment Regulations, 1881.)

11. The equipment of Regimental Depôts will be re-marked, generally, in accordance with paragraph 458, Equipment Regulations, 1881. The arms will be dealt with specially as directed in paragraph 472 of the same, and musical instruments under paragraph 449, consistently with paragraph 2 of these Instructions.

12. Militia Battalions will have their equipment re-marked under the following instructions:—

a. Accoutrements will be re-marked under paragraph 1261, Militia Regulations, 1880. Stamps will be provided on repayment, and the actual cost of marking, not exceeding one half-penny an article, which must include the provision of stamps and ink, will be allowed.

b. Musical instruments will be re-marked under paragraph 1263, Militia Regulations, 1880, and the allowances therein sanctioned will be granted for the amount of engraving actually performed.

c. Pending further instructions the marking of arms now in possession will remain unchanged for the present.

13. Marking the outer flap of the valise by means of stencilling has been *provisionally* approved. In marking the flap, the battalion number and county name or letters will be placed as nearly as possible across the centre of the valise, thus:—

1. LOTHIAN. 2. E. KENT. 3. WARWICK.

But where initial letters only are used, care will be taken to place the battalion number on the left of the central strap which passes over the flap, and the regimental letters on the right, leaving a space between for the strap, thus:—

1. | | R.F. 2. | | R.I. 3. | | S.W.B.

The grenade and bugle used respectively with Fusilier and Light Infantry regiments will be placed to the left of the numeral.

The initial letters and numerals are $\frac{13}{16}$ inch high; the terminal and other letters $\frac{10}{16}$ inch high.

14. In marking the valise the brush should be used almost dry with the paint thick. The flap should be laid flat upon a hard smooth surface, and the paint *dabbed in*, the brush being held vertically, and on no account worked across the stencil-plate. The back of the plate should be kept clear of paint with a turpentine rag, and the face also occasionally wiped with the rag to prevent an accumulation of paint.

15. The valises of Regimental Depôts will not be marked on the outer flap. They will be marked on the inside only with marking ink.

16. White paint, of the following composition, should be used in stencilling:—

Lead, white, ground in oil ..	lbs.	4
Gold-size	gill	½
Turpentine	„	¼

The marking with this mixture will dry, in an ordinary store, in about eight hours.

17. It will not be necessary to re-mark articles of clothing and necessaries now in possession, but the new territorial system of marking will be observed with all new issues.

18. The amendments rendered necessary, in consequence of these instructions, in the Equipment Regulations, 1881; the Regulations for the Supply of Clothing and Necessaries to the Regular Forces, 1881; and the Regulations for the Militia, 1880, will be notified hereafter.

their charge, as well as for the requisite observations being made, either by the Registrar in a General Hospital (*see* Part 2, Sec. II., para. 117), or by some competent person who may be selected for that purpose, and in accordance with the following instructions :—

(1.) As it is of great importance to preserve unimpaired the continuity of Meteorological observations, all changes in the adjustment of instruments, in their position, mode of reading, or registering, will, as far as possible, be carefully avoided.

(2.) The observations will, as far as possible, be made by one person; where this is not practicable, the deputy to whom they are confided will previously assure himself that his method of reading is identical with that of the principal observer, and both should satisfy themselves by mutually testing the accuracy of their reading.

(3.) Registers (Army Form K 1292) should be as perfect as possible, but if, from any cause, observations be lost, no attempt should be made to fill the blanks so caused.

(4.) The observations will be made at stated and regular times.

(5.) Before taking the means of the numbers in each month, the observer will look down each column in the Register to see that no evident error of entry has been made (an inch, for instance, in the reading of the barometer is a common error). He will examine the thermometric readings to see that the maximum and minimum readings have not been interchanged; and, before dividing the sums of the numbers, he will count, in each column, the days on which observations have been entered, so as to exclude error in the division. Decimal arithmetic will be used throughout.

(6.) With the exception of the "attached thermometer," all thermometers must be read to the tenths of a degree.

(7.) wear may be readily seen and carried forward when it shall become necessary to open a new page.

90. The annual requisitions for Clothing for the Militiamen will be forwarded to the Director of Clothing within two months after the completion of the Training. 100. The cards being retained by the Adjutant will constitute vouchers for the articles in wear, and will afford a complete inventory of the same. One card will be retained by the man, and will show him the articles for which he is responsible.

Clothing lists to be completed from cards.

101. From the cards, the Adjutant will complete the Clothing lists, Army Form H 1142 (late W.O. Form 864) with the register numbers of the articles served out to each man, and will then compare the lists with the muster rolls to see that the men are really effective.

102. The Adjutant, in the presence of the Captain or his representative, will, during the Training, see each Company, in turn, paraded, and will compare the articles in possession of each man, and the register numbers which the articles bear, with the cards and the lists, and will correct any discrepancies that may be discovered. The Clothing list will then be signed by the Captain.

Articles of Clothing in possession of men to be checked.

103. After the Clothing lists shall have been signed by the Officers Commanding Companies, the cards received by the Adjutant will be given to the Serjeant-Instructors, but, at the expiration of the Training they will be returned, together with those not used in consequence of the absence of the men for whom they were made out, to the Adjutant, and will be destroyed by him.

112. No article of Clothing will be returned to the Royal Army Clothing Depôt or other Public Store without the sanction of the Director of Clothing being first obtained. In applying for authority, the Commanding Officer will state on what date the articles were received by him; his reasons for wishing to return them; their condition; and whether they are or are not regimentally marked. On the receipt of the authority for their return, care will be taken, before their transmission, that the number and description of the articles forwarded exactly correspond with the particulars specified therein, and that no article is included which was not originally received from the Royal Army Clothing Depôt or other Public Store, as such article, if sent, will be returned to the Regiment, and the carriage both ways charged against it. The Regiment from which the articles are sent will be shown on the labels of the packages.

Disposal of empty packages.

113. Militia Regiments will return all casks and cases received with Clothing, Necessaries, or War Office Forms to the nearest Ordnance Store Officer, at the same time forwarding to such Officer the usual vouchers.

Packages to be accounted for.

114. Packages issued to Regiments of Militia with Clothing, Necessaries, or War Office Forms, and those issued with Clothing or Necessaries specially demanded on repayment, will be brought on charge in the Clothing Ledger and in Army Form H 1136 (late W.O. Form 865).

Rates for specialities.

115. When permission is given to Regiments of Militia to provide regimentally any articles of Clothing, the rate to be charged for each article so provided will be notified by the Director of Clothing, or be promulgated in the Army Circulars. When there is no rate fixed and instructions are given to provide the articles locally, the rates at which several Firms would undertake to supply them will be obtained and submitted to the Director of Clothing for his approval, before any of them are accepted. In such cases the letters forwarding the tenders will be marked "Pressing."

Clothing to be searched.

116. On the receipt of the Clothing into store, at the termination of each Training, it will be carefully searched, and the pockets emptied of any articles that may be left in them.

Articles requiring repairs.

117. A return of the Clothing of the Militiamen, exclusive of the Permanent Staff, which absolutely requires repairs, together with an estimate of the cost of effecting the same, will be transmitted not later than one month after the termination of the Training, to the Director of Clothing, on Army Form H 1137 (late W.O. Form 868), for authority to incur the expense. The application will be supported by a statement showing in detail the nature of the repairs required, and if no part of the estimate is chargeable to the men under paragraph 119, by a Certificate to that effect.

118. Arrangements for the repair and cleansing of Clothing at the termination of the annual Training, will be carefully considered by Officers Commanding Regiments, before any decision is arrived at as to the amount of expenditure to be proposed in the estimate; and as the repairs to the Clothing are usually of a simple character, they will, if possible, be executed by men of the Permanent Staff, whether tailors or not.

Arrangements for repairs or cleansing to be carefully considered.

119. The cost of replacing buttons or other parts of articles which have been lost will not be allowed against the public. The repairs chargeable to the public will be limited to those for damages caused by necessary wear and tear, and will not include damages which arise from carelessness or mischief. The cost of such repairs, cleansing, or fumigation, as are attributable to the negligence or want of personal cleanliness of Militiamen will be charged to the men concerned, but will be included in the return referred to in paragraph 117.

What repairs are chargeable to the men.

120. The following solutions will be found effectual in removing the stains from scarlet frocks, viz.:—

One ounce of salts of sorrel dissolved in one and a-half pints of boiling water, and one ounce of cream of tartar dissolved in one and a-half pints of cold water; each solution being kept in a separate vessel. This quantity will be sufficient for eight garments.

Solutions for cleaning scarlet frocks.

121. Frocks which require cleaning will first be well beaten and brushed. A perfectly clean hard brush will then be used in applying the solutions alternately to the garments, commencing with the salts of sorrel, until all the stains have been completely removed. If the weather will permit of it, the garments will then be hung up in the sun to dry, but if not, they will be hung up in a dry place, but not near fires or stoves.

Mode of applying the solutions.

122. The ingredients will be obtained on the spot, and application to incur the necessary expenditure will be made to the Director of Clothing. Each application will be accompanied by a statement of the quantities required, the cost at which they can be procured, and the number of garments to be cleaned, and when authority has been received the work will be performed by the Permanent Staff as a duty.

Provision of ingredients for cleaning.

123. Should the articles be found in such a state as to render fumigation or any special mode of cleansing necessary, a separate estimate of the expense at which the materials for the purpose can be bought will be forwarded with the estimate for repairs, and a separate explanation of the causes which have led to such an exceptional state of the articles will be furnished. When the cost of the materials shall have been authorised, the Permanent Staff will carry out the work.

Fumigation.

124. Each application by a Commanding Officer to incur expenditure for the repair, cleansing, or fumigation of Clothing, will be accompanied by a statement showing the names of the

Application to incur expense in repairs.

men chargeable for any proportion of the estimated cost of these services, and the amount assessed against each man.

Worn-out garments retained for cutting up.

125. A few suits of worn-out garments will, upon application to the Director of Clothing, be allowed to be retained for the repair of others, but the collars of the frocks and the waistbands of the trousers will be required to be given up to the Ordnance Store Officer.

Repairs of boots.

126. No Allowance will be granted for the repair of boots.

Cleaning Clothing at termination of Training.

127. As the Clothing will be kept clean by the men during the Training, the only cleansing which should be necessary when it is taken into store at the termination of the Training will be to brush it, which will be done by the Permanent Staff, but no charge for the performance of this duty will be admitted against the public.

128. Articles of Clothing issued to replace losses, articles destroyed by wilfulness or neglect, or articles worn out, will not be charged for, but they will be required to wear for the full periods laid down in these Regulations; and the value of the article lost, destroyed, or prematurely worn out, calculated according to the number of unexpired Trainings or months during which the article should have been used but was not, will be charged against the man, together with the worn-out value, in the same manner as laid down in paragraph 130, except in cases in which the articles are forthcoming, when the worn-out value will not be charged. See paragraph 131.

129. The full value will be charged for new great-coats and capes; for worn-out coats and capes, the worn-out value will be charged; but for part-worn coats and capes, the proportionate value for each year which the lost article had to be worn, when lost, will be charged in addition to the worn-out value. The annual Clothing Accounts will show the articles lost, the amounts recovered, and the Pay Lists in which the credits will be found.

Mode of computing the value of lost articles.

130. The following is the method of computing the value of a lost article:—

(*a.*) Deduct the worn-out value of the lost garment from its value when new.

(*b.*) Divide the remainder by the number of months or trainings the garment should wear.

(*c.*) Multiply the quotient by the number of months or trainings the lost garment has actually been worn.

(*d.*) Subtract the result from the total value of the garment when new.

(*e.*) The remainder will be the sum to be charged to the soldier.

(*f.*) Any part of a month will be taken as a whole.

Worn-out value not to

131. In cases where the soldier has not lost the garment, but has so damaged it as to make it unserviceable, the worn-

out value will be deducted from the final result arrived at in the manner described in the preceding paragraph, and the difference will be the sum to be charged to the soldier.

be charged for articles forthcoming.

132. Where the worn-out value of an article is less than one shilling, it will not be taken into acccount in the calculations required to find the amount representing the value of the unexpired period of wear, but not less than the worn-out value will be charged in any case.

Worn-out value less than one shilling.

133. A list of such articles as are to be charged for, whether as lost or issued on payment, will be made out by the Adjutant against each Company, and handed to the Accountant who renders the Pay Lists for the Permanent Staff. The latter Officer will then complete the cash portion of the document, and include the total amount as a charge against the Officer Commanding, at the same time crediting the public with the amount.

Accountant to complete cash portion of vouchers.

134. The articles required to replace losses by desertion will be supplied free of charge; but the deserter on rejoining will be required to pay the value, as detailed in paragraph 130, of such articles as he may have made away with.

Losses by desertion.

135. Charges on account of Clothing will not be included in any Pay List rendered to the War Office unless they have been authorized by the Director of Clothing.

Clothing charges in Pay Lists.

136. The Abstract of Charges will show the whole expenditure, whether a portion is to be recovered from the men or not, and the amount recovered from the men who, under paragraph 119, have to pay for wilful damage, carelessness, or want of personal cleanliness, will appear as a credit to the public in the Abstract of Receipts.

To show whole expenditure.

137. The charges and credits on account of Clothing will appear in the Pay List of the period during which the charges have been authorised or the credits have been received. The charges will be submitted for the approval of the Director of Clothing as they are incurred.

Charges and Credits.

138. In the case of charges for making-up or fitting Clothing and for marking Clothing, great-coats, head-dresses and leggings, the number of the order (which will be found quoted on the Delivery Voucher) on which the articles were issued from the Royal Army Clothing Depôt will be quoted on each claim, and, where more than one order is quoted, the number of articles charged for on each will be distinctly shown.

Charges for making up, fitting, and marking Clothing.

139. Abstracts of Charges will be accompanied by any provisional authorities which may have been previously given by the Director of Clothing for incurring expenditure for services not fully provided for in these Regulations. The provisional authority will empower the Accountant to disburse the money necessary, and will be a voucher to that effect, but no charge on account thereof will appear in the Pay-List without the authority referred to in paragraph 140.

Provisional authorities to accompany abstracts of charges.

Provisional authority sanctions payment of money.

Director of Clothing to authorise payment.

140. On returning the abstract to the Commanding Officer, the Director of Clothing will give authority for including in the Pay List such specific amount as may be properly chargeable to the public.

Charges for re-altering.

141. Charges for re-altering Clothing will be accompanied by an explanation of the causes for the necessity for the charges.

Fitting.

142. When a garment has been fitted to a man it will be retained as far as practicable for his exclusive use so long as he remains in the Regiment, or until the garment is worn out.

Necessity for alteration of Clothing ought to be rare.

143. If sufficient care be taken, the necessity for altering Clothing ought not frequently to occur, and, as the frock issued under present regulations is intended to be a loose-fitting garment, it should very seldom require alteration.

Officer Commanding to give written order for alteration of Clothing.

144. The alteration of Clothing will only be carried out on the written order of the Commanding Officer, specifying the articles to be altered, and the names of the men for whom they are required; and such order will not be given until it has been ascertained that the garment which it is proposed to alter will not, without alteration, fit any Militiaman in the Regiment, of dimensions corresponding to the size marked on the garment, and who has not already been fitted.

Agreement with tradesmen for alterations or repairs.

145. In making arrangements for the alteration or repair of Clothing, the person who is to perform the work will sign an agreement to do the same at specified rates. This agreement, together with the tradesman's original receipted bill, and the written orders under which the work was executed, will accompany the voucher forwarded to the Director of Clothing for pre-audit.

One abstract to include all credits.

146. One abstract to be furnished with each Pay List will include all sums on account of Clothing and Necessaries credited to the public, and care will be taken that credits for separate years are not mixed up, and also that the credits correctly represent the value of the items struck off in the Accounts concerned.

Pay List in which credit is given to be quoted in the Account.

147. Whenever a statement is made in the Clothing Account, that credit for a certain sum will be given, the date of the Pay List rendered to the War Office, and, if possible, the number of the voucher, in which such credit will appear, will be distinctly quoted.

Articles destroyed on account of infectious diseases.

148. Before articles are destroyed or struck off charge on account of the wearer having suffered from infectious or contagious disease, special authority will be obtained from the Director of Clothing, unless the Medical Officer shall certify that cleansing and fumigation will not be sufficient to prevent the spread of infection or contagion, and that the immediate destruction of the articles is absolutely necessary, in which case the articles will be at once destroyed, and application will be made to the Director of Clothing for covering authority to strike them off charge. When the Clothing can be disinfected, such steps as the Medical Officer may consider practicable and

sufficient will be taken regimentally. In all cases the report made to the Director of Clothing will be accompanied by the certificate of the Medical Officer, showing the nature of the complaint, and the steps recommended by him, as well as by a statement of the names of the diseased men, of the articles infected, and the time they have been in use.

When an article is to be considered worn out.

149. It should be clearly understood that articles will not be considered to have been worn the full periods, unless they have been actually in use. The years or trainings during which articles remain unused in the Regimental Store will not count in reckoning the time articles have been worn.

Responsibility of the Adjutant.

150. The Adjutant of the Militia Regiment will be at all times responsible for the efficiency, and will be held accountable for the quantity and condition of the Clothing of his Regiment; and all requisitions and receipts for the same will, on all occasions, be signed by him. No Non-Commissioned Officer or private will be recognised in any way as a sub-accountant or store holder of regimental Clothing or Necessaries.

Compensation.

151. Compensation in lieu of Clothing or Necessaries will not be allowed under any circumstances either to members of the Permanent Staff who are not serving on their Army engagements or to Militiamen. Members of the Permanent Staff who are serving on their Army engagements will be paid compensation, as laid down in paragraph 17.

Particulars of articles sent with transfers.

152. Adjutants of Regiments from which men are transferred will furnish Adjutants of Regiments to which they are transferred with full written particulars respecting the Clothing and Necessaries of every man transferred.

Correspondence.

153. All communications on the subject of Clothing or Necessaries will be addressed by Officers Commanding Regiments to the

Director of Clothing,
Royal Army Clothing Depôt,
Grosvenor Road,
London, S.W.

Vouchers.

154. Vouchers for articles received from, as well as for articles returned to the Royal Army Clothing Depôt, will be forwarded to the Storekeeper instead of to the Director of Clothing.

Liability for unprovided services not to be incurred without authority.

155. No liability on account of services not provided for in these Regulations, will be incurred withour special authority having been previously obtained from the Director of Clothing, or having been promulgated in Army Circulars.

Prices of Clothing and Necessaries.

156. The rates to be charged for all articles of Clothing or Necessaries issued to the Militia on payment, or to replace losses by neglect, as also the value of articles when worn the prescribed periods, will be published annually in Army Circulars.

Rates for making up.

157. The following rates will be allowed for making up Clothing supplied in material to Regiments of the Channel Islands Militia. These rates include the fitting of the garments, and also of sewing on the chevrons and badges appertaining to each rank, viz.:—

250*b*. As a general rule, however, Officers mentioned in the preceding paragraph will not, for the future, be required to pay Inhabited House Duty on public quarters duly allotted to them. Any assessments to Inhabited House Duty may, if not withdrawn locally under Inland Revenue authority, be reported for consideration, with a view to relief from its payment.

250*c*. Regimental Officers, and Officers of the Army Departments who do not hold appointments for any fixed term, will be exempt from the payment of Income Tax (Schedule A) and Inhabited House Duty on their public quarters.

250*d*. All Officers of the Army or Army Departments in public quarters, whether holding their appointments for a

fixed term or not, will, from the 1st April 1882, be exempt from the payment of claims to tithes, authorized water rates, and local rates, such as Poor Rates, Highway Rates, General District or Sanitary Rates on War Department barracks, quarters, or huts. Such claims, if made, will be considered as made upon War Department property, whether the quarters belong to or are hired by the Government, and will be dealt with as directed in the Regulations for the Royal Engineer Department, and in the Regulations for the Commissariat and Transport Staff. 353*a*. Such cost will not exceed the amount of the forage allowance to which the Officer would have been entitled if a horse had been kept, during the period of the monthly or quarterly account (as the case may be) in which the claim is preferred.

353*b*. These claims will be made on Army Form O 1771, and will be accompanied by receipts as far as practicable, as well as by a reference to the order of the superior Officer, exempting the Officer from keeping a horse.

Bounties—Regiments of Irish Militia.

(ISSUED AS A SPECIAL ARMY CIRCULAR ON THE 3RD MAY 1882.)

The training of the Irish Militia during the year 1882 having been dispensed with by order of Her Majesty in Council, dated 6th February 1882, the following instructions, in regard to the payment of bounty to the non-commissioned officers and men of that Force, have been approved by the Secretary of State for War, and are issued for the information of those concerned. Clause 120

1. The non-commissioned officers and men effective on the 1st April 1882, may be paid their Annual Bounty and Reserve Bounty, if entitled thereto, in the same manner as if their regiments had been assembled for training.

2. The Adjutant of the several regiments will make this generally known throughout the counties to which their regiments belong, and will arrange, with as little delay as possible, for the

Finance (Auxiliary Forces)—*continued.*

Clause 120 *continued.* payment of the bounty, during the months of May and June, at the head-quarters of their respective regiments, as well as at those places, within the county, where the men are most likely to be met with.

3. Men who may be in prison awaiting trial at the time of the general payments may, if acquitted, be at once paid the bounty to which they may be entitled; but if they are found guilty of an offence not amounting to felony, the bounty will be withheld, and instructions asked for. If the offence is one which amounts to felony, the bounty will be forfeited, and the man should be at once discharged from the Militia, under the provisions of paragraphs 193 and 194 of the Regulations for the Militia, 1880 (Army Regulations, Vol. VIII.), as amended by Clause 125, Army Circulars, 1881.

4. Men who, for other reasons, may not be forthcoming when the general payments take place, and who afterwards make application for their bounty, may be paid the same, unless there are any special circumstances which render it desirable that the payment should be withheld, pending reference to the War Office.

5. The bounty may be paid to men who were effective on the 1st April 1882, but have since become non-effective; to men who have volunteered for the Regular Army since that date; and also to men who may be absent from the county, and who apply for the same by letter; but in the latter case due care will be taken to obtain satisfactory evidence of their identity by descriptive returns, and communications with their employers, or the local magistrates; and the genuineness of receipts should, in all cases, be established to the Accountant's satisfaction.

6. Men may be re-engaged for the Militia, and re-enlisted for the Militia Reserve, under the conditions prescribed by the Regulations, at the time that their ordinary Militia bounty for the year is paid to them, and may be granted re-enlistment bounty and Reserve bounty in the same manner as if they had re-engaged at the termination of the training, under the provisions of paragraphs 579 and 585 of the Regulations for the Militia (Army Regulations, Vol. VIII.), and of paragraph 596 of the same Regulations as amended by Clause 221, Army Circulars, 1880.

7. A statement of the bounty paid will be prepared on Army Form N 1496, which will be forwarded to the War Office as soon after the 30th June as possible. The total of the bounty paid, as shown on this form, will be carried to the General State of the Regimental District Pay List.

8. The names of all the non-commissioned officers and men belonging to the several regiments will be entered in alphabetical order of companies in the Statement (Army Form N 1496), and

the dates on which the engagements of any of the men shall have terminated since bounty was paid to them for last year, will be shown against their names in the column of remarks. Clause 120 *continued.*

9. The War Office, or other authority for striking off the names of any of the men, whether on account of sickness, desertion, enlistment into the Regular Forces, or purchase of discharge, or for any other cause, will be forwarded as vouchers to the Statement, and the date of death of any men will be noted in the column for remarks.

10. The signatures of the men will be placed against the amounts charged for them in the Statement, and the column under the heading "Travelling and Conveyance" may be used for this purpose.

11. The travelling expenses of the Adjutants, while employed away from the Head-Quarters of their regiments in paying bounty, will be claimed in the same manner as their ordinary travelling expenses. Those of the Staff-Serjeants will be charged in the accounts of the Regimental District. No charges will be admissible for travelling expenses or allowances to men coming to receive the bounty due to them.

12. The bounty paid after the despatch of the Statement on Army Form N 1496 will be charged in the Regimental District Accounts, vouched by a Statement of Details, made out on spare sheets of Army Form N 1496.

13. The year 1882 may be reckoned as a year of training for men who are released on and after the 1st April 1882, to join the Regular Army under the Regulations on the subject, provided they were on the strength of their Militia regiments on that date.

APPENDIX VIIIa.

Gunpowder and Ammunition in Magazines and Stores in charge of Royal Artillery.

(*Referred to in paragraph* 150, *Part I.*)

1. The contents of every magazine or store containing ammunition in Royal Artillery charge will in future be arranged, for local convenience and record, under the authority of Officers Commanding Royal Artillery, as follows:—

(*a.*) Loose powder, where exceptionally on charge, in groups by history.

(*b.*) Made-up cartridges, tubes, and fuzes, in groups which will be, as far as possible, collections of articles identical in nature, age, and history.

2. Groups having been once formed, great care will be taken to preserve their continuity.

3. Existing books and accounts relating to the stores in question will be continued, and no alteration will be made in the mode of keeping them; but to every magazine or store where ammunition is kept in Royal Artillery charge, a "Magazine, or Cartridge Store Record," or a "Shell and Fuze Store Record," will be issued.

4. These books will contain a number of sheets for showing the contents of the magazine or store, and the results of the various inspections, and, in addition, a suitable proportion of plain ruled sheets to be used for a journal.

5. The journal will consist of consecutive minutes (dated and initialed) relating to all occurrences of interest in connection with the magazine or store, and especially to all receipts and deliveries, and all inspections.

6. The progress of each day's work will be invariably entered in the book at the time.

7. Specimen printed pages showing the mode in which the records are to be kept will be found at the beginning of each book, and will be carefully followed as far as possible.

8. All entries in the books in question will be made in an Officer's handwriting.

Appendix to Change 168—*continued.*

9. During the six months ending First March and Fifth September in every year, the Officer in charge of each Sub-District, assisted, if practicable, by an Officer of equal or superior rank detailed by the Officer Commanding Royal Artillery, will specially inspect each magazine and store containing ammunition in his charge, and will see that the record book is duly posted up.

10. Loose sheets will be supplied for the purpose of keeping a duplicate record at the Head-Quarter Office in each District. These duplicate records will be sent to the Sub-District Offices half-yearly, in time for the inspection as above, and will there be completed to date, in correspondence with the sheets in the record book kept in the Sub-District. On each occasion of this being carried out, the fact will be noticed in the journal, and the duplicate will then be returned to the Head-Quarter Office.

11. Inspections by the Royal Artillery will be by groups in each magazine. Cylinders, metal-lined cases, or barrels containing ready-to-use cartridges, shell, and fuzes, will not be opened, but will be examined externally and their appearance noted.

12. Books and forms, as below enumerated, will be required for carrying out the above services:—

Magazine or Store Record, Army Book 132.
Shell and Fuze Store Record, Army Book 133.

Royal Warrant—Allowance Regulations, 1881—Provision of Horses, &c., during Active Operations.

(ISSUED AS A SPECIAL ARMY CIRCULAR ON THE 29TH JULY 1882).

VICTORIA R.

WHEREAS WE deem it expedient to make provision for the grant to certain Officers while serving with an army in the field, and necessarily performing mounted duty, an allowance to provide themselves with a riding horse and horse equipment, in lieu of providing them with a public horse; Clause 160

OUR WILL AND PLEASURE IS that the regulations attached to this Our Warrant, which shall have effect from the 26th July 1882, shall be the standing authority on the matters therein treated of, and shall be added to Section VI. of the Regulations governing the Allowances of Our Army attached to Our Warrant of the 24th June 1881. Army Regulations, Vol. I., Part III.

Given at Our Court at Osborne, this 28th day of July 1882, in the 46th year of Our Reign.

By Her Majesty's Command,

HUGH C. E. CHILDERS.

---

1. The following will be added after paragraph 241 of the Allowance Regulations 1881:—

241*a*. Officers below the Regimental or relative rank of Major (excepting Officers on the General Staff and Veterinary Surgeons), while serving with an Army in the field, and necessarily performing mounted duty, will, if not in receipt of any special rate of pay for the performance of mounted duty, be granted the sum of 50*l.* to provide themselves with a riding horse and horse equipment.

241*b*. Such horse will not be provided from the Remount Depôt, but must be provided by the Officer himself. If any casualty occur during the service the horse will be replaced

Clause 160 *continued.*

by the Officer at his own expense. When no replacement has been necessary, the horse originally purchased will, if the Officer quits the Force before the termination of the campaign, be the property of the public.

241*c*. The Paymaster or agent through whom the Officer draws his pay will issue the above allowance upon the production of an order from the General Officer Commanding (or from the Adjutant-General of the Army, if the Officer be required to purchase a horse before embarkation for service), directing the Officer to provide himself with a horse. The Paymaster will report to the Officer in charge of the Remount Depôt that such issue has been made, and will charge the amount in his accounts to the head of Vote 10, Item D, Field Allowance Abroad. The charge will be vouched by the Officer's receipt, and by a certificate from the Officer under whose orders he is serving that a riding horse and equipment have been purchased by him.

241*d*. In the event of the Officer quitting the Force before the end of the campaign he will hand over his horse to the Remount Depôt, and at the same time report by letter to the Officer in charge that he has so done; or if the horse originally purchased has died or been killed, and has been replaced by him, he will forward a certificate, countersigned by the Officer under whose orders he is serving, showing the casualty and the date of replacement.

241*e*. This regulation is not applicable to any Officer who is entitled to be provided by his corps with a troop horse, nor to any Warrant Officer for whom public horses are authorised.

2. Paragraph 111 of the above-mentioned regulations is hereby cancelled.

Alteration in the proportions assigned.

58. If it should be necessary to alter the proportions assigned to the sub-heads within the aggregate amount of a vote allotted to the command by the War Office, the District Paymaster will apply for the authority of the General or other Officer Commanding, and will immediately report the alteration to the Secretary of State, explaining at the same time the necessity for it.

Provisional Credit.

59. In the event of the notification referred to in paragraph 56 being delayed, the District Paymaster will apply to the General or other Officer Commanding for a provisional credit, which will be immediately reported to the Secretary of State.

216. At Foreign Stations, claims for all rents, rates, and taxes will be paid locally by the District Paymaster.

Naval services.

218. The Paymaster will not include in the War Office accounts any payments for Naval Services; all such payments will be included in the Treasury Chest Account.

Wages, or Labour lists.

219. The Paymaster will make the necessary arrangement for the payment of wages of men employed in the various departments. The men at the head-quarters will be paid direct from the office of the Paymaster, upon detailed lists certified to by the heads of their respective departments. The men employed in outlying positions will be paid by the Departmental or other Officer in charge of the men. The money requisite for the purpose will be supplied by the Paymaster, to whom weekly accounts of the expenditure will be furnished by the Officers making such payments. When the wages of labourers are paid, the Officer in charge of the men, or, in the absence of an Officer, the foreman, will invariably attend. The receipt of each individual will be attached to the Pay List unless, on account of the large number of labourers employed, a special exemption to this rule has been sanctioned, the wages being paid on check books.

Estimate voted by Parliament no authority.

220. The Annual Estimate voted by Parliament will not be considered as authority for any payments.

iv. Receipts.

221. Paymasters will give credit for and recover:—

(4.) Any other sums required by Army Regulations to be received and credited by Paymasters.

222. In crediting the sums realised by the sale of unserviceable supplies or stores, no deduction will be made on account of expenses connected with the sale, except the auctioneer's commission.

223. In giving credit in their accounts for drafts upon the Paymaster-General or the Treasury Chest, and in taking credit for repayments, the amount and date of each transaction will be clearly shown, and Paymasters abroad will furnish, as a voucher to their accounts, a memorandum, certified by the Treasury Chest Officer, of the sums drawn from or paid into the Treasury Chest by them during the period of each account. Accurate particulars of Cash Transactions.

224. District Paymasters will be furnished with all necessary information by the responsible Royal Engineer or Commissariat Officer, in reference to rents, acknowledgments for encroachments, and every kind of revenue yielded by property belonging to, or in charge of, the War Department, and will enter all the necessary particulars in the Records of Rents Receivable (Army Book 229) Supply of information to Paymasters.

225. Paymasters will prepare a quarterly list, on Army Form P 1933, of all such amounts falling due within their district, and will call on all persons indebted to make immediate payment. In the event of any difficulties or delays in the payments, the matter will be brought by the Paymaster to the notice of the Commanding Royal Engineer, or of the Senior Commissariat Officer in the case of quarters let. 229. The District Paymaster will acknowledge the receipt of all notifications sent to him of sums chargeable against the troops on account of barrack, hospital, or military prison stores lost, Recovery of.

230. The District Paymaster will report to the War Office any delay on the part of the troops in effecting a settlement, and will state the dates on which the several applications for a settlement have been made.

231. When the sums due on account of stores lost, damaged, or made away with have been credited, the District Paymaster will complete the certificate at the foot of Army Form P 1956, and return one copy to the Commissariat Officer in charge of barracks, retaining the other as a voucher to his account.

Marching-out inspection.

232. In the case of marching-out inspections of regiments leaving for Foreign Service, the damages will be credited in the Regimental Paymaster's accounts.

Paying bills for damages

233. Before paying bills for the repair of damages, Paymasters will satisfy themselves that such damages have been charged against the troops, and will, when possible, give a reference on the bills to the credit.

Prison damages

234. The amounts shown on the returns of damages by prisoners in military prisons, Army Form P 1924, sent by the Governors or Chief Warders to the District Paymaster, will be recovered from the several corps concerned by the District Paymaster, and credited in his accounts.

235. The stoppages of 1*d.* a-week from patients in the Netley Hospital or in the Herbert Hospital, will be credited in the accounts of the Paymasters from whom the men receive their regimental pay.

SECTION VI.—ABSTRACTS OF EXAMINATION, DECISIONS, AND DISALLOWANCES.

Notification of objections.

236. The correctness of the charges or credits included in all accounts rendered to the War Office will be determined as soon as possible after their receipt by that Department. The objections or disallowances which may arise thereon will be communicated to the Paymaster in the prescribed form. It will be his duty to prepare answers to the abstract of examination of these accounts as soon as he receives the abstract, and if he finds himself unable to forward such answers within 14 days, he will furnish through his Commanding Officer an explanation of the circumstances which occasion the delay.

Replies to objections to be rendered in duplicate.

237. The Abstract of Examination, together with the Paymaster's replies, will be returned to the War Office in duplicate.

Credit of disallowances at home.

238. A Paymaster at home will credit in the first Account rendered after the receipt of the War Office "Decisions" upon his "Answers," any disallowances that may be made in such "Decisions."

239. A Paymaster abroad will credit in the first account rendered after the receipt of the Abstract of Examination any disallowances that may be made therein. Any further disallowances that may be made in the War Office "Decisions" upon the answers to the Abstract will, in like manner, be credited in the first account rendered after the receipt of the "Decisions." Abroad.

240. The Paymaster will, on the receipt of the Abstract or "Decisions" on his accounts from the War Office, at once recover any sums disallowed which may be due from Officers and others, and, should any difficulty be experienced, he will report the circumstances through his Superior Officer to the Officer Commanding the station or district, so that orders may be given for the immediate payment of the amount claimed (*see also* paragraph 11). Recovery of sums disallowed.

241. The Paymaster will be personally liable to make good the amount of disallowances arising from errors or over-issues made by him in disregard of regulations or special authority; nor will he be relieved from the necessity of giving credit for such disallowances in the next account rendered by him, on the ground that the recovery referred to in paragraph 240, has not been effected when the account is dispatched to the War Office. Paymaster will be liable as regards errors or over issues.

242. If, after having given credit for disallowances, the Paymaster has any further explanations to submit to the War Office, and such explanations should prove satisfactory, a specific authority will be given to re-charge the sums which may be re-allowed; but the whole amount of all the disallowances will invariably be credited, in the first instance, as directed above. Specific authority to re-charge after further explanation.

243. Similarly, if an Officer, or other person, wishes to appeal against a disallowance recovered from him under paragraph 240, such appeal will be forwarded to the War Office through the General Officer Commanding the District, but the General Officer Commanding will not forward the appeal until he has satisfied himself that the amount of the disallowance has been actually refunded. When, however, the Officer is serving abroad, or is on active service, the General Officer Commanding may, if he considers it is absolutely necessary, allow the repayment to be postponed until the result of the appeal is known, in which case the Paymaster will be relieved from the necessity for crediting the amount, pending a final decision. In the case of Commissariat or Ordnance Store services, the appeal will be forwarded to the General Officer Commanding through the senior Officer of the department, as directed in paragraph 50. Appeal against disallowance.

244. In no case will any rate of pay or allowance objected to be issued after the date of the receipt of the Abstract or "Decisions" in which such rate is objected to or disallowed.

245. Upon a change of Paymasters the Paymaster in charge at the time of the receipt of the Abstract or "Decisions," will be held responsible for adjusting the disallowances in conformity with these instructions, and any sums which he is unable to recover locally, for which the outgoing Paymaster will be personally liable, Responsibility on a change of Paymasters.

should be forthwith notified to him with all necessary particulars, with a request for the immediate payment of the amount due.

Claims against Departmental Officers.

246. In the cases of claims against Departmental Officers on account of unauthorised issues or loss of stores, credit will likewise be given immediately on the receipt of directions from the War Office.

Disallowances on Contractor's claims.

247. When a disallowance has been made on the claim of a Contractor employed under the Royal Engineer Department, after it has been paid by the Paymaster, the over-payment will be recovered in cash, if possible, or if not, will be deducted from the next claim due to the Contractor. In the latter case the amount of the claim will be charged in full against the vote, and credit given for the disallowance.

248. If this course is not practicable the Commanding Royal Engineer will be responsible for the recovery of any disallowances which may be made on charges for Engineer services if arising from errors which might have been detected in his office.

SECTION VII.—ADJUSTMENT OF PAYMENTS.

	Paras.
i. Between the War Office and the Admiralty ...	249–254
ii. Between Paymasters at Home	255–271
iii. Between Paymasters at Home and Abroad ...	272–278
iv. Advances to men relegated to the 1st Class Army Reserve	279–284

i. Between the War Office and the Admiralty.

Arrangements between the War Office and Admiralty.

249. The following arrangements exist between the War Office and the Admiralty regarding expenditure on account of military and naval officers and men employed on navy and army service respectively.

Pay, &c., of seamen and marines.

250. All pay, allowances, and other expenses on account of seamen and marines, whether afloat or on shore, will be defrayed from naval funds under the orders and regulations of the Lords Commissioners of the Admiralty, except when such seamen or marines are landed from cruisers at a foreign station to occupy a military fort or garrison in the absence of troops, when the charges for their extra allowances will be defrayed from Army funds.

The department which obtains the benefit to bear the expense.

251. When Army Officers or soldiers are employed on naval service, or Naval Officers or men are employed on Army service, the branch which obtains the benefit will bear the expense of any local allowances, or extra or working pay to which the said Officers or men may be entitled by the regulations of their own department.

Mode of adjustment.

252. All payments which may be due under paragraphs 250 and 251 will be made by the Paymaster or Accountant of the department to which the claimants may belong, and be subsequently adjusted between the War Office and Admiralty, but

the Pay Lists or other vouchers will be certified, in respect of periods and services, by the Officers under whose directions the Officers or men may have been employed.

Inst. 1879.

253. All payments that may be made by Paymasters to Army Officers or men for services performed for the Naval Department will be charged under the head of "Lords of the Admiralty, Repayments," and care will be taken that all pay lists, or other vouchers for such payments, are supported by the certificates required by paragraph 252. Payments for services performed for the Naval Department.

1873 928

254. Claims preferred by the Paymaster of Royal Marines on account of rations issued and cash advanced to soldiers temporarily attached to that Corps on Court Martial or other duty will be adjusted with as little delay as possible, and the amount remitted, in cash, to such Paymasters. Similarly, claims for rations supplied, or cash advanced, to men of the Royal Marines whilst temporarily attached to Army-Corps, will be addressed directly to the Paymasters of the Divisions or Depôt of the Royal Marines, from whom the amounts shall be recovered.

ii. Between Paymasters at Home.

Inst. 1879.

255. At Home stations, advances made by one Paymaster on behalf of another will be adjusted in the following manner, so as to avoid the transmission of bank notes, cheques, or other negotiable documents. Advance at Home stations.

Do.

256. When a Paymaster has paid a sum on behalf of another Paymaster, he will (except in the case referred to in paragraph 262) notify the amount thereof to the person on whose acccount the payment has been made, on Army Form O 1682, No. 2.

Do.

257. On receipt of this Form, the Paymaster *for* whom the payment has been made will, if satisfied that the amount is correct, at once complete the "Reply" portion of the Form, and return it to the Officer by whom the amount was paid. Notification of advance.

Do.

258. The Paymaster *for* whom the payment has been made will thereupon debit himself with the amount, and on making up his accounts will include it in a Schedule, Army Form O 1686, the total of which he will carry to the last page of the General State (Debit side) of his Accounts, under the head of "Paymasters' Advances." Reply Form.

Do.

259. The Paymaster *by* whom the payment has been made will credit himself with the amount, and on making up his accounts will include it in a Schedule, Army Form O 1685, the items in which will be supported by vouchers on Army Form O 1682, O 1683, or O 1752, hereafter referred to, and the total carried to the last page of the General State (Credit side) of his Accounts, under the head of "Paymasters' Advances." Debit Schedules. Credit Schedules.

Do.

260. In Corps rendering half-yearly Pay Lists, the schedules of Paymasters' Advances, with the vouchers, will be transmitted Schedules of advances to be rendered quarterly.

to the War Office quarterly, although the Advances will only be brought to final account in the Half-yearly Pay Lists.

261. The schedules and vouchers for the first and third quarters of the financial year will accompany the Account Current, and those for the second and fourth quarters will be forwarded with the Half-yearly Pay List.

262. In the case of payments made by a District or Regimental District Paymaster the particulars will be notified on Army Form O 1684, and the reply, instead of being forwarded immediately, as in other cases, will be transmitted, as soon as practicable after the expiration of each month, on Army Form O 1683, and the total amount for the month will be included in the Schedules, Army Forms O 1686 and O 1685.

263. This method of adjustment will also be followed in all cases in which a monthly settlement is usually effected, Army Form O 1682 or O 1683 being used for the purpose.

264. Advances notified on No. 1 Reports, need not be notified on Army Form O 1682, or Army Form O 1684.

265. A similar course to that laid down in paragraphs 256 to 262 will be followed in any case in which a Cash Remittance would otherwise be made from one Paymaster to another, and Army Form O 1682, No. 1, will be used, except in the case of savings bank balances of soldiers discharged at the Royal Victoria Hospital, Netley, as invalids, when Army Form O 1752 will be used. The Paymaster on whose behalf the payment is to be made will debit himself with the amount, and on making up his Accounts will include it in the Schedule, Army Form O 1686, in the manner described in paragraph 258.

266. The Paymaster making the payment will charge the amount in the manner prescribed by paragraph 259, the charge being supported by the Voucher on Army Form O 1682 or O 1752.

Incomplete transactions to be avoided.

267. In order to avoid the introduction into the Accounts of incomplete transactions (*i.e.*, credits to Paymasters' Advances for which no corresponding debits will be found in Accounts for the same period), the Paymaster will be careful not to request on Army Form O 1682, No. 1, that a payment may be made on his behalf, unless satisfied that the Officer to whom the Form is sent can make it. In any case of doubt he will notify by letter his desire that a payment may be made, and will not include the transaction in the Accounts until the actual payment has been reported on Army Form O 1682, No. 2.

Adjustment of Barrack Damages.

268. The adjustment of the sums to be credited to the Public for Barrack damages, &c., will be effected under these Regulations. The Paymaster will be careful to give such information as to Service, Station, and Period, as will at once lead to the identification of the sums to be adjusted.

Fin. Inst. 1879, and Committee.

269. No amount will be introduced into a Paymaster's accounts as a "Paymaster's Advance," unless both the Officers concerned are agreed as to its correctness. Accountants to be agreed.

Do.

270. The governing date inserted in Army Forms O 1682, O 1684, and O 1752 will be that on which the document is actually transmitted; and the charges and corresponding credits for all home transactions will be included in Accounts for the same period. All transactions under this subsection, initiated on or before the 31st of March in each year, will be adjusted in the Accounts to that date. Charges and credits to be within the same period.

Do.

271. Fractional parts of a penny will not be inserted in the totals of Army Forms O 1682 and O 1683, or in Army Forms O 1686 and O 1685. Fractional parts of a penny.

iii. Between Paymasters at Home and Abroad.

Do.

272. The instructions contained in paragraphs 256 to 271 will, with the following modifications, apply to adjustments between a Paymaster at home and a Paymaster abroad, or between two Paymasters abroad.

Do.

502. Each soldier who has joined on mobilization will be supplied before leaving the Head-Quarters of the Regimental or Pension District in which he resides, with two copies of Army Form D 425, one completed, the other blank, with orders to present them on reporting himself at the station to which he is ordered to proceed. The date to be inserted on the form is that on which the man quits the Head-Quarters of his Regimental or Pension District.

503. The two copies of Army Form D 425 will be collected from each man as he reports himself at the Corps or Depôt to which he is ordered. The Officer Commanding the Corps or Depôt will cause a duplicate of the original to be prepared, in the Orderly Room, on the blank form which the man brings with him. Both the original and duplicate will then be endorsed by the Officer Commanding the Corps or Depôt, with the date of the man's arrival. The original will be given to the Paymaster of the Corps or Depôt which the man has joined, and the duplicate will be returned to the Officer by whom the original was issued, and annexed as a voucher to the account in which the last charge appears for the man's Reserve Pay.

504. No Army Pay will be issued to men found fit for service on mobilization until they join the Corps or Depôt to which they have been sent, but if from any unavoidable cause a man is detained at the Head-Quarters of the Regimental or Pension District in which he resides, or does not, before leaving the District, receive the Pay and Reserve Deferred Pay to which he is entitled, a sum of money, sufficient to defray his subsistence until he joins the Corps or Depôt to which he is sent, will be advanced to him by the Paymaster paying the Reserve. The man's receipt will be obtained for the sum advanced to him, which will be recovered as an advance from the Paymaster of the Corps or Depôt to which the man is sent.

505. Each man on joining the Corps or Depôt to which he is sent will be settled with for Army Pay from the date inclusive on which he is shown by Army Form D 425 to have first reported himself. The first charge for Regimental Pay will be supported by Army Form D 425 in original.

506. When a soldier serving in the Army Reserve rejoins for Army Service on Mobilization he will, from the date on which he reports himself for duty, as directed in the Notice of Mobilization, resume the pay of the same rank or regimental appointment as that which he held on transfer to the Reserve (unless he shall have been reduced while in the Reserve), notwithstanding that he may, for the time being, be supernumerary to the establishment of his rank.

507. Any charge for Good-Conduct Pay or for Re-engaged Pay at 1*d.* issued to soldiers who rejoin for Army Service on mobilization will be supported by a copy of the soldier's record of service (showing service in the Army Reserve), and a charge for Good-Conduct Pay will also be supported by the usual Defaulter Book Certificate.

508. Soldiers who, on mobilization, are found permanently unfit for service, and are sent back to their homes pending discharge, will receive from the Paymaster paying the Reserve their Army Pay and Allowances from the date of reporting themselves to that of discharge.

510. The charge for the men's Reserve Pay and Reserve Deferred Pay will be made in the accounts of the Paymaster of the Regimental District, and will be supported by the duplicate of Army Form D 425. Payments to the men themselves will be supported also by proof of payment.

511. If, from any unavoidable cause, the Officer paying the Reserve is unable to pay a man his Reserve Pay and Reserve Deferred Pay before he leaves the Regimental or Pension District, he will forward to the Paymaster of the Corps or Depôt to which the man has been sent a report on Army Form O 1728, showing the amount of Reserve Pay and Reserve Deferred Pay due to him, a separate Form being used for each man.

512. The Paymaster of the Corps or Depôt which the man has joined will then pay him the amount of Reserve Pay and Reserve Deferred Pay to which he is shown, by Army Form O 1728 to be entitled. The man's signature will be obtained, and the Form returned to the Officer paying the Reserve, from whom the amount of Reserve and Reserve Deferred Pay issued will be recovered as an advance. Any allowances to which the man was entitled before leaving the Head-Quarters of his Regimental or Pension District should be issued by the Paymaster of the Corps or Depôt which the man has joined and recovered in similar manner from the Officer paying the Reserve.

513. Separation allowances may either be paid in cash or by Post Office Order under the system established for the payment of pensions, separate Advice Lists being made out for these allowances.

514. When separation allowances are paid in cash, the charge will be supported by the receipt of the person who receives the allowances, and Army Form O 1762 will be used as a voucher for the payment.

1219. They will also be examined externally, cleaned, and oiled by the Serjeant-Instructor as occasion may require, and especially just before the annual training. The Serjeant-Instructors who have been through a Course of Instruction at the Royal Small-Arms Factory, Birmingham, in the care and preservation of Martini-Henry arms, will be held responsible that the mainsprings and strikers of the arms of their battalions are kept in good order; and they will at once replace either of these parts should one become broken.

In such cases a careful record will be kept of the numbers of the arms browned, and the date on which this service was performed. This information should be furnished to the Superintendent Royal Small-Arms Factory, in order that he may keep a record of the year in which the arms should be browned.

INSTRUCTIONS FOR THE DISABLEMENT OR DESTRUCTION OF GUNS BY MEANS OF GUNCOTTON.

84
L

3
4211, 5121

---

1. The Destruction of Heavy Guns when time is immaterial.
2. The Hasty Disablement of Siege Guns and of Field Guns.

---

1. THE DESTRUCTION OF HEAVY GUNS WHEN TIME IS IMMATERIAL.

1. This duty will be performed by the Royal Artillery, the stores marked (*a*) in the following list being obtained from the Royal Engineers; and the remainder taken from the siege train equipment.

2. The materials required are as follows:—

(*a.*) Guncotton (1 lb. slabs), perforated, to receive a dry primer, 2 slabs for each charge, and spare slabs at the rate of 2 spare for every 5 (or less number) of guns to be destroyed.

The slabs are issued wet, and are so kept in store, but it is immaterial whether they are wet or dry when required for use.

(*a.*) Guncotton primers, dry, weighing 1 oz., 1¼ inches in diameter, coated with tallow; 1 primer for every 2 slabs.

Bags, waterproof, to contain 2 lb. of guncotton, 1 for every 2 slabs carried.

(*a.*) Exploder, tension, dynamo-electric.

(*a.*) Solution, india-rubber, in tin cylinder.

(*a.*) Twine, stout, 1 lb.

This is sufficient for about 20 *charges.*

(*a.*) Detonators, No. 5, in a cylinder containing 25 detonators, with a rectifier.

Each cylinder will suffice for 20 *charges, with* 5 *spare detonators.*

(*a.*) Wire, insulated, lengths of 40 yards each.

Five additional yards are required for each charge after the first operation, to replace the wire blown away by a discharge.

Tackle and selvagees, with rollers, skidding, handspikes, &c., for lowering the gun into a pit, or up-ending it under the branch of a tree.

The exact proportion of these cannot be given. It will depend upon the size of the guns to be destroyed, upon local circumstances, &c.

Directions for carrying out the Operations.*

3. Plug up, with a peg of wood, the vent of the gun to be disabled, driven well in so as to make the vent water-tight.

4. Up-end the gun on its breech, either by digging a pit for its reception, or by other convenient means.

5. The officer in charge of the operations must be guided by local circumstances, but the more the gun is raised vertically on its breech the better.

6. Insert the bared terminals of the insulated wires (which must be scraped clean) into the copper eyes of a No. 5 detonator, previously seeing that these eyes are free from paint, &c.

7. Insert the detonator, after securing it to the wires, into a dry primer, first using the rectifier to ensure the hole in the primer being of a proper size to admit the detonator, which should be set home to the head.

8. Care must be taken that the bare ends of the wire do not touch each other when secured to the detonator.

9. *On no account whatever should a detonator be twisted or roughly forced into a primer.*

10. Insert the dry primer, fitted with detonator, into the perforation in one of the 1 lb. slabs, pushing it gently in until the hole in the slab is quite filled by it.

11. Place the slab thus prepared, together with another slab, in a waterproof bag.

12. Choke the neck of the bag with twine closely round the insulated wires; plaster the inner portion of the choke round the wires with the india-rubber solution, and choke again round and above the solution, so as to make the whole as watertight as possible.

13. Attach to the wires a small sinker of any heavy material, so that its weight comes on them above the choke. The sinker should be small in bulk, so as to allow the charge to settle home to the bottom of the bore; and, when hanging freely from its point of support, it should be just below the bottom of the bag.

---

* *See* note at end.

14. Attach to the choke a piece of stout twine long enough to reach to the bottom of the bore of the gun, and lower the charge by it carefully to the bottom of the bore, paying out the insulated wires at the same time and taking care that no strain comes on them.

15. Fill up the bore with water; connect the free ends of the insulated wires with the binding screws of the exploder, and, after seeing that all is clear, turn the handle rapidly till detonation occurs.

16. This should be done immediately after lowering the charges into the gun, so as to give the water as little time as possible to effect an entrance into the bag.

17. The operator should be careful to place himself and his party at a safe distance from the gun. A distance of between 30 and 40 yards will probably suffice for this.

18. In the event of a detonator failing, at once disconnect one of the wires from the exploder. The charge must then be taken up and re-made, with a fresh detonator. Great caution must be exercised in slowly extracting the detonator from the primer.

Cautions.

19. Care should be taken to see that the insulation of the wire is perfect, and that the connections are clean and good.

20. If any part of the wire is accidentally denuded of its insulation, prop up the adjacent insulated portion, so that the bared portion will not touch the ground.

21. Detonators by themselves must always be handled with the greatest care and freedom from rough usage, and still more so when they are fitted into guncotton. The latter by itself is harmless.

22. Immediately after an explosion, detach one of the wires at least from the exploder, and do not re-attach it till just before firing the next charge.

2. THE HASTY DISABLEMENT OF SIEGE GUNS AND FIELD GUNS.

23. The hasty disablement of siege guns will be carried out by the Royal Artillery, and of field guns by the Royal Horse Artillery.

Stores required.

24. The necessary supplies of guncotton for the disablement of siege guns will be obtained from the Royal Engineer Siege Park.

25. The following stores will be carried with each unit of the Siege Train:—

Two "wallets, leather," each capable of containing eight 1 lb. slabs of guncotton.

These slabs are issued wet, and are so kept in store; but it is immaterial whether they are wet or dry when required for use.

One "cylinder, tin, for guncotton primers, 1 oz., 1¼-inch dry (to hold 8)."

Two "cases, leather, brown, cylindrical, for detonators," each containing a cylinder, tin, for detonators (No. 8) with 2 feet of safety fuze attached (to hold 8).

One "pouch, leather, brown," with strap, containing box, metal, vesuvian matches, and a twist of twine.

26. The following stores will be carried by each battery of Royal Horse Artillery:—

Six leather cases, each containing a slab of guncotton 6 × 6⅛″ × 1 ″, cut in two pieces.

These slabs are issued wet, and are so kept in store; but it is immaterial whether they are wet or dry when required for use.

Three "cylinders, tin, for detonators (No. 8) with 2 feet of safety fuze attached (to hold 4)."

Three "cases, leather, brown," cylindrical, for cylinder, tin, for detonators and primers.

Three "pouches, leather, brown," with strap, each containing a box, metal, vesuvian matches, and a twist of twine.

Three cylinders, tin, for dry guncotton primers, each to contain

27. These stores will only be issued in time of war. The guncotton and detonators will be carried by the Ammunition Reserve Column till active operations are impending; and, when required in the field, the supply of guncotton (both slabs and primers) will be replenished from the Royal Engineer Field Park.

28. The stores will be carried by horse-holders of Nos. 1, 3, and 5, subdivisions, one set in each subdivision, as follows:—

The cases for guncotton slabs—one on front of each wallet, fastened by a strap going round the wallets, passing through the staple, and then through two loops attached to the ends of the guncotton cases.
(The slabs can be withdrawn without removing the sheep-skin).

The case, leather, containing the detonators and primers—under the picket-peg, in rear of the valise, the top opening on the near side, the sheep-skin covering the whole.

The pouch, leather, for vesuvian matches, and twist of twine—on the waist-belt.

Instructions for carrying out the Operations.*

29. In the case of guns of 64-pr. and larger calibres two slabs must be employed.

30. Insert a detonator into a dry primer.

31. *On no account should a detonator be twisted or roughly forced into a primer.*

32. Insert the dry primer fitted with detonator into the perforation in one of the slabs, pushing it gently in until the hole in the slab is quite filled by it.

33. Tie a piece of twine round the detonator, pass the ends round the slab, and then tie them together; the object being to prevent the primer slipping out of the slab.

34. Place the slabs lengthways on the chase, their long sides touching, about a foot from the muzzle. Tie them on tightly with twine to prevent them slipping from wind or other disturbing cause.

35. The exact position must depend on the form of the gun. The great thing is to have as much of the surface of the cotton *in actual contact* with the gun as possible. Hence the slabs should not ride on an astragal or moulding, but should always be placed on a plain part of the chase.

36. Observe the direction of the wind, and arrange the slab containing the detonator so that the tail of the safety fuze is away from the slab and to leeward of it. This is to lessen the chance of a spark igniting the cotton before the detonator is fired, in which case, in all probability, no effect whatever would be produced on the gun.

37. If projectiles belonging to the gun are available, and time allows, it is advisable to ram one up the bore; so that when the gun is dented by the explosion it may be imprisoned there and prevent the gun from being used even to fire a bag of bullets.

38. Tear or cut the little calico cap off the end of the safety fuze and ignite the fuze by the apparatus provided, or other convenient means. An ordinary flame does not readily ignite it. The fuze ignites most easily when cut obliquely with a sharp knife.

39. Retire to a safe distance (say 50 yards) and await the explosion. The length of safety fuze will burn about 45 seconds.

---

* *See* note at end.

40. Should circumstances permit, the effect of the detonation will be increased by placing a filled sand bag or a sod of turf on the guncotton, when lashed in position on the chase. Great care should be taken in this operation not to strike or bend the detonator.

41. It is also advisable, after the explosion, to try if the gun is so dented as to prevent loading. If the dent is not sufficient, the operation should be repeated, putting the fresh slabs in the same place as the first.

Caution.

42. Never roughly bend or kink the safety fuze. If it has apparently gone out without firing the detonator, allow at least half an hour to elapse before meddling with it, if time will admit, but if not, the greatest care must be taken in touching it, to avoid accident by a "hang-fire."

---

43. The above instructions apply equally to the hasty disablement of field guns, but with them only one slab of guncotton need be used.

NOTE.—The above instructions have been prepared with special reference to the disablement or destruction of muzzle-loading guns. Breech-loading guns can generally be temporarily disabled by the removal or destruction of portions of the breech apparatus. In destroying such guns, or rendering them permanently disabled, Officers will, while being guided generally by these instructions, use their discretion as to the application of the charges in such positions as may appear most suitable, according to the particular construction of the gun to be operated upon.

REGULATIONS FOR THE COMMISSARIAT AND TRANSPORT STAFF.

Exemption from Custom Duties.

The following will be substituted for paragraphs 178 to 182 of the Regulations for the Commissariat and Transport Staff, 1881, (Army Regulations, Vol. IV., Part I.) :— Clause 236

178. In Foreign Possessions of the Crown, the Senior Commissariat Officer will apply to the Colonial Government for the remission or rebate of duties on supplies of every description, imported or supplied by sea or inland carriage or navigation, for the public use of Her Majesty's Forces, whether the duties are imposed by Acts of the Imperial Parliament, or of the Colonial Legislatures.

179. He will also apply for a rebate of duty on supplies sold for the public use of the troops, though not directly imported for that purpose.

180. When articles ordinarily liable to duty are supplied under contract for the use of the troops, the following course will be pursued, except in those Colonies where the steps indicated in paragraphs 182*a* and 182*b* are taken :—

(*a.*) The Senior Commissariat Officer will cause a statement to be prepared detailing the articles to be imported, and specifying the vessel in which they have arrived or will arrive.

(*b.*) He will forward this statement to the proper Custom House Officer, and obtain authority thereon for the admission of the supplies free of duty.

(*c.*) He will then hand over the statement to the Commissariat Officer who is to receive the supplies, in order that he may deliver the same to the Collector of Customs at the port where the goods are to be landed. The Commissariat Officer will give a receipt in duplicate for the articles delivered to him under the superintendence of the Officers of Customs.

181. These regulations are not intended to sanction the importation of any goods from places or in vessels not authorised by law. No greater quantity of goods than shall be mentioned in the statement laid before the Senior Commissariat Officer will be landed without his previous sanction; and all articles imported for the purpose of being supplied under contract for the use of the troops will be liable to the same examination and form of entry as goods imported in due

Clause 236 *continued.*

course of trade, and will be landed only in the usual hours of business, and in the presence of an Officer of the Customs, except in cases of emergency, and by special order of the Governor, which will be obtained by the Senior Commissariat Officer, as directed in paragraph 178.

182. With the view of preventing articles which have been imported duty free, for the use of Her Majesty's troops, from being brought into general consumption without the payment of duty, the following course will be pursued:—Heads of Departments will furnish the Senior Commissariat Officer with quarterly certificates of the articles and quantities imported duty free, which have been actually used or retained for Army service; and the Senior Commissariat Officer will forthwith apprise the Officers of the Customs of the particular quantities, and the description of the articles, returned to contractors, or sold, or otherwise not used or retained for Army service, in order that they may be enabled to levy and claim the duty thereon.

182*a*. In Colonies where, instead of allowing the free importation of articles for the use of the troops, a rebate of duty is granted, Heads of Departments will furnish to the Senior Commissariat Officer, quarterly certificates of the articles and quantities actually used for Army service on which duty is to be repaid, in order that he may take the necessary steps for obtaining rebate. In the case of articles provided under contract, these certificates will be given to the contractors to enable them to claim the rebate direct.

182*b*. This course will also be followed with regard to the rebate to be given for supplies not imported directly for the troops, though afterwards purchased for the public use.

REGULATIONS FOR THE VETERINARY DEPARTMENT.

Issue of Revised Veterinary Regulations.

ARMY RESERVE.

(ISSUED AS A SPECIAL ARMY CIRCULAR ON THE 25TH OCTOBER 1882.)

De-mobilization of the 1st Class Army Reserve.

On orders being given for the re-transfer to the Army Reserve of the soldiers who were called out on permanent service, by Her Majesty's proclamation of the 25th July 1882, the following instructions will be observed:— Clause 239

1. The re-transfer of the men to the Army Reserve will be carried out in accordance with the instructions contained in Section XIX. of the Queen's Regulations and Orders for the Army governing the ordinary transfer of soldiers to the Reserve on the expiration of their term of service with the Colours, subject to the following modifications.

Clause 239 *continued.*

2. On receipt by the Corps of the order for de-mobilization, a furlough of 42 days will be granted to each soldier re-transferred to the Army Reserve, and the date of the expiration of such furlough will be considered for all purposes as the date of the expiration of Army service with the Colours.

3. Men in hospital will be dealt with as prescribed in para. 97*a*, Section XIX., of the Queen's Regulations and Orders for the Army, and will not be re-transferred to the Army Reserve until fit to travel. Men in prison will not be re-transferred until the expiration of their imprisonment. Both men in hospital and men in prison will be granted furlough on re-transfer to the Army Reserve, in accordance with para. 2.

4. Each man, before proceeding on furlough, will be furnished with the documents specified in para. 96, Section XIX., Queen's Regulations and Orders for the Army, and will be instructed to report himself before the expiration of his furlough, either personally or by letter, to the Officer paying the Army Reserve of the District in which he intends to reside.

5. The man, if he reports himself by letter, will be instructed to forward with his letter his protecting certificate. New parchment Descriptive Returns (Army Form D 426) will be issued to the men in exchange for their protecting certificates.

6. In preparing the documents for transmission to the Officers charged with the payment of the Army Reserve, each man's service will be completed up to and including the date on which his 42 days' furlough will expire; a fresh "Proceedings on discharge" (Army Form B 268) and "Parchment Discharge Certificate" (Army Form B 128) being prepared in each case.

7. The men will in all cases be marched to the railway station or steamer under proper charge. General Officers or other Officers Commanding Districts or Stations will make the necessary arrangements to ensure regularity, punctuality, and order. Officers Commanding will give timely notice to the railway authorities in the case of large numbers requiring conveyance on the same day.

8. The men will, from the date of re-transfer to the Reserve, be shown in all returns as re-transferred from the Corps with which they were serving at the time of de-mobilization.

9. Separation allowance will not in any case be issued beyond the end of the month in which the men are sent to their homes.

10. A list of the men of each regiment or Corps to be re-transferred will at once be forwarded to the Officer Commanding the Depôt, in order that no further advance of separation allowance may be made to the wives and families of the married men. Clause 239 *continued.*

*11. Separation allowance will be issued to the wives and families of men who may remain in hospital or in prison under para. 3.

12. Although the men will proceed on furlough on de-mobilization, they will be entitled to travelling expenses and the same allowances as if sent to their homes under the ordinary conditions of transfer to the Reserve, except that they will be allowed to go to their intended places of residence within the United Kingdom, even if involving greater cost than a journey to the place of their attestation.

13. The accounts of the men will be completed up to the date of the expiration of the 42 days' furlough. The men will receive, on quitting their Corps, the balance of pay and allowances due to them up to that date, excluding the advance for the period of furlough, and an advance of 10*s.* out of the pay due to them for the period of furlough.

14. The balance of pay and allowance in lieu of rations for the period of furlough, together with the Army Deferred Pay for the period of mobilization, will be remitted to each man at his intended place of residence in the manner prescribed for the payment of deferred pay (paras. 445 to 449 of the Financial Instructions).

15. The men will receive Army Deferred Pay under the usual conditions for the period they received Army Pay, and will not, at the end of the financial year or on discharge, if discharged before the end of the financial year, receive Army Reserve Deferred Pay for such period. Cl. 205, A.C., 1878.

16. Every man proceeding on furlough on re-transfer to the Army Reserve will be dealt with, as regards clothing, in accordance with para. 559 of the Regulations for the Supply of Clothing and Necessaries to the Regular Forces, 1881 (Army Regulations, Vol. XI.) In the event of plain clothes not being available, the sum of 1*l.* will be allowed in lieu.

---

17. Clauses 102 and 104, Auxiliary and Reserve Forces Circulars, 1878, are hereby cancelled.

Allowance Regulations, 1881—Separation Allowances for Families of Soldiers on Foreign Service.

Clause 243 1. The following will be added after paragraph 90 of the Allowance Regulations, 1881 (Army Regulations, Vol. I., Part III.):—

90*a*. When the troops embark these allowances will be paid as follows:—

(*a*.) In Corps with Depôts by the Paymaster paying the Depôt of the Corps in which the men are serving;

(*b*.) In Field Artillery and Royal Engineers by the Paymaster in whose payment the Battery or Company was at the time of embarkation;

(*c*.) In Household Troops by the Officer Commanding the Corps at home;

(*d*.) In Departmental Corps by the Paymaster of such Corps;

on the receipt, in each case, of the statements rendered, before embarkation, by the Commanding Officer, on Army Form O 1796 (as required by paragraph 454*a*, added to the Financial Instructions, 1882, by Clause 245, Army Circulars, 1882),

showing the names of the Warrant Officers, non-commissioned officers, and men on the Married Establishment, the names and future addresses of the wives, and the number and ages of the children. Clause 243 *continued.*

90*b*. In cases not provided for by paragraph 90*a*, application will be made to the War Office.

90*c*. The allowances will be paid either to the wife in person or by Post Office Order under the system established for the payment of pensions when the Paymaster is authorized to act as Post-master, and in other cases by ordinary Post Office Orders.

2. In the first line of paragraph 91 of the above-mentioned Regulations, the words "paragraphs 89 and 90" will be substituted or the words "the two preceding paragraphs."

Financial Instructions, 1882—Prizes for Signalling.

The following will be added after paragraph 442, of the Financial Instructions, 1882:— Clause 244

442*a*. The Prizes for Army Signalling will be paid each year on the publication of the General Order showing the relative efficiency of the Corps in signalling, and the charges will be supported by a reference to the General Order, a statement of the names of the men, and by proof of payment.

Financial Instructions, 1882—Allotments of Pay.

The following will be added to the Financial Instructions, 1882, after paragraph 454:— Clause 245

(aa.) ALLOTMENTS OF PAY TO FAMILIES OF SOLDIERS ON FOREIGN SERVICE.

454*a*. When a Corps serving at home is placed under orders for active service, and the families of the men on the Married Establishment are to be left behind on embarkation, the Commanding Officer will prepare a statement on Army Form O 1796, showing the names of the Warrant Officers, non-commissioned officers, and men, the names and future addresses of the wives, the number and ages of the children, and the rate of allotment payable.

454*b*. The Commanding Officer will, before embarkation, forward the statement referred to in paragraph 454*a*,

(*a*.) In Corps with Depôts, to the Paymaster paying the Depôt of the Corps in which the men are serving;

(*b*.) In Field Artillery and Royal Engineers, to the Paymaster in whose payment the Battery or Company was at the time of embarkation;

Clause 245 *continued.*

(*c.*) In Household Troops to the Officer Commanding the Corps at Home;

(*d.*) In Departmental Corps to the Paymaster of such Corps;

(*e.*) In all other cases direct to the War Office.

454*c*. The rate of the allotment inserted on Army Form O 1796 will be that prescribed by Article 753 of the Pay Warrant, unless the soldier himself consents to make an allotment at a higher rate. In the latter case, he will sign the declaration on the form specifying the rate at which he wishes the allotment to be paid. Such rate will not, however, exceed three-fourths of his daily pay.

454*d*. The Paymaster or other Officer specified in paragraph 454*b* will, as soon as he receives the statement on Army Form O 1796, proceed to issue the amount of the allotment from the date of embarkation to the end of the month in which the statement is received, and will continue to make the payment monthly in advance.

454*e*. If the money cannot be paid to the wife in person, it will be remitted by means of an ordinary Post Office Order.

454*f*. The Paymaster will furnish to the War Office monthly a statement in duplicate showing the rank and name of the soldiers to whose families allotments have been paid, the periods of payment, and the amounts paid. This statement will be supported by proof of payment, and the first issue will also be supported by the statement on Army Form O 1796, showing the amount payable. The recovery of the amounts issued will be effected by the War Office through the Paymaster of the Corps on active service.

454*g*. Should any casualty occur among the men to whose families an allotment is being paid, or any circumstance arise materially affecting the allotment, it will be the duty of the Paymaster of the Corps on active service to send an immediate notification of such casualty or circumstance to the War Office, stating to what date the allotment has been recovered.

454*h*. The regulations contained in paragraphs 454*a* to 454*g*, apply to soldiers on the Married Establishment, but soldiers not on the Married Establishment will, with their own consent, be allowed to allot a portion of their pay for the benefit of their families on the same conditions. The Commanding Officer will, therefore, on the Corps being placed under orders for active service, take steps to ascertain

if there are any married soldiers, not on the Married Establishment, who wish to make an allotment of pay to their families. Clause 245 *continued.*

454*i*. Any such soldier will sign a declaration on Army Form O 1796, and the form so signed will be sent to the Paymaster specified in paragraph 454*b*. The Paymaster will issue the allotment, and report the amount paid to the War Office in the same manner as if the woman were on the Married Establishment.

454*j*. All sums paid on account of allotments will be charged in the accounts under a special head of "Allotments," the charge being supported by a statement showing the totals of the various lists transmitted to the War Office.

247. The proportions for practice include 60 common shells for prize competition, 30 being fired plugged. Prize competition.

248. Cartridges will be supplied filled. Cartridges.

249. Shells supplied to replace those used for the annual practice will, except at certain stations where it may be convenient to issue filled shells, be issued empty, with plugs and gas-checks, and will be filled by the batteries. In such cases the following stores will be issued at the stations where the batteries are quartered, and will be returned into store when the operation of filling the shells is completed:— Shells to be issued empty. Whenever shell-filling rooms or laboratories exist at a station, the operation of filling shells will be performed therein; at other stations the Officer Commanding the Battery will be held responsible that proper arrangements are made to ensure safety, and that the precautions laid down in Appendix VII. are as far as possible observed. Precautions to be observed.

251. Gun ammunition will be demanded on Army Form G 806, and will be dealt with in the manner laid down for small-arm ammunition. Requisitions.

Equipment Regulations (Regular Forces)—*continued.*

Clause 255 *continued.*

Dismissal of Recruits.

252. Three rounds of common shells (plugged), and three of blank ammunition, are allowed for the dismissal of each Recruit, and such ammunition will be applied for as may from time to time be required on Army Form G 808.

Oldest ammunition to be used first.

253. Ammunition of the oldest manufacture will always be first expended, and will be replaced by the next supply from store. A proportion of any new pattern of ammunition will be issued to each battery carrying on triennial practice.

Plugged shells.

254. Shells required to be fired plugged will be taken from the empty shells supplied to replace those used at practice, and filled as directed in paragraph 277. In the exceptional cases mentioned in paragraph 249, the filled shells will, when the practice is carried on over land ranges, be emptied of powder and refilled as laid down in paragraph 277; when the practice is carried on over the sea, and there is no danger of their being recovered, shells may be fired filled with powder and plugged.

Fuzes for boring.

255. For instructional purposes, unserviceable M.L. time fuzes are allowed annually, as under—

6-Gun batteries	50
4-Gun batteries	35

Garrison Artillery.

Garrison Artillery.

256. The allowance of ammunition for the annual practice of Garrison Artillery is comprised under two heads—viz., Battery Practice and Station Practice.

Battery practice.

257. Battery practice includes the allowance both for instructional and competitive firing.

Armament guns to be used for Battery practice.

258. With the object of familiarising the Officers and men with the particular equipment they have in charge, care will be taken that the Instructional Battery Practice shall be carried out, whenever practicable, from the guns forming a part of the armament of the district in which the battery is stationed, the guns being served from their proper magazines, &c. A statement showing the number of rounds fired from each 7-in. R.M.L. gun, and upwards, will accompany the Station Practice Report (paragraph 282*h*).

Guns for competitive practice.

259. Competitive practice, being solely for the purpose of testing the skill in laying, of individual non-commissioned officers and gunners, may be carried on from such guns as are, in the opinion of the Officer Commanding, most suitable for the purpose.

Station practice.

260. At station practice all heavy guns, 7-in. R.M.L. and upwards, exclusive of those from which battery practice

is carried on, and which are so mounted as to be capable of being fired with projectiles with safety, will be fired three times, consecutively, every second year,* and from all other heavy guns, 7-in. R.M.L., and upwards, from which practice with projectiles cannot be carried on, three rounds of blank ammunition will be so fired. The above rounds will invariably be fired from the whole of the guns in each separate work on the same day. Clause 255 *continued.*

261. As a rule, station practice will be carried on annually from half the guns in a district, the whole of the guns in each of the works chosen for this practice, being manned simultaneously, and all arrangements made which would be necessary in action; the object being both for instruction and for testing thoroughly the working condition of the carriages and gear, and of all the fitments of the forts and batteries, for supply of ammunition, and for fighting the guns generally. Arrangements for station practice.

262. Particular attention should be paid to the arrangements necessary in each fort or battery for its proper subdivision into groups of guns, with a view to its efficient control and command in action, and to the proper directing of its fire under all circumstances; and, in order to ensure that the experience gained in such station practice is not lost, a special report of it will be included in the Station Practice Report, *vide* paragraph 282*h*, describing in detail the mode adopted, with any remarks and recommendations that may suggest themselves for guidance in future practice. Special report of arrangements made.

263. Targets will be laid out for shotted practice if practicable, and in certain districts it may be found advantageous to lay down a "special idea" for each occasion of the station practice from particular forts. In such cases targets will be placed in the positions hostile ships attacking the fort might be expected to take up, and the fire of the work directed upon them. A copy of the "special idea" will accompany the Station Practice Report. Targets for shotted practice.

264. When it is necessary for the purpose of practice or exercise, to remove the bulkheads separating the emplacements of the heavy R.M.L. guns, the service will be carried out by the Royal Artillery, the Royal Engineer Department furnishing such explanation as may be requisite to expedite the removal. The bulkheads will also be replaced by the Royal Artillery. Removing bulkheads.

265. The responsibility for any damage done during the removal or replacing of the bulkheads, due to want of care, will fall on the Royal Artillery. Responsibility for damage.

* Every year at Gibraltar and Malta.

Equipment Regulations (Regular Forces)—*continued.*

Clause 255 *continued.*

Allowance for station practice.

266. For station practice, the biennial allowance of ammunition for each gun capable of being fired with projectiles with safety will be—

Nature of Projectile.	12·5-in.	12-in.	11-in. or 12-in. 25-ton.	10-in.	9-in.	7-in.
Shells, empty, Palliser ..	3	3	3	..	..	..
Shot, Palliser	..	..	..	3	3	3

Shrapnel shells.

267. In those works where Shrapnel shells are allowed as part of the equipment, these projectiles may be substituted for Palliser projectiles to the extent of one third the total number of rounds allowed.

Blank ammunition.

268. For blank ammunition, battering charges will be used for 12·5-in. guns, and full service charges for all other guns for which no blank charge may have been prescribed.

Allowance for battery practice.

269. For battery practice, the normal allowance of ammunition will be annually—

Nature of Projectile.			7-in. R.M.L.	80 or 64-pr. R.M.L.	7-in. R.B.L.	40-pr. R.B.L.	Mortars.	Total.

Total			10	60	10	10	10	100

9-in. guns may be used in lieu of 7-in.

270. If 7-in. R.M.L. guns are not available, 10 rounds may be fired from 9-in. guns.

Normal allowance may be commuted for lighter natures.

271. In order to facilitate instruction in the use of the various natures of ordnance which may be available for practice in districts, especially where the instruction in heavy gun firing conveyed through "Station Practice" alone, is ample for all purposes, and more practice with medium guns or lighter natures is desirable, Commanding Officers may commute the normal allowance for its equivalent value in other descriptions of ammunition, on the condition that more than the normal number of rounds are not fired from R.M.L. guns of 7 in. or over, and that the maximum number of rounds fired does not exceed 150.

Equipment Regulations (Regular Forces)—*continued.*

272. When such commutations are desirable or necessary, the following scale of alternative numbers of rounds will be adhered to :— Clause 255 *continued.* Scale of commutation.

2 rounds	..	..	9-in. R.M.L. are equal to—
3 „	..	..	7 „ „
or 5 „	..	..	7 „ R.B.L.
„ 5 „	..	..	80 or 64-pr. R.M.L.
„ 8 „	..	..	40-pr. R.B.L.
„ 14 „	..	..	20 „ „
„ 10 „	..	..	10-inch mortars.
„ 20 „	..	..	8 „ „

273. When any commutation is intended, the Officer Commanding Royal Artillery will, after conference with the Senior Ordnance Store Officer, submit to the General Officer Commanding what it is proposed to be, in time to obtain his sanction thereto prior to the preparation of the annual estimates, which, when passed, will govern the natures of ammunition to be used for practice during the ensuing season. O.C.R.A. to confer with S.O.S.O. when commutation is intended.

274. In the event of rifled guns of position forming a portion of the armament of the garrison or fortress, the Officer Commanding Royal Artillery may use his own discretion in carrying on practice from such guns; the number of rounds expended will form part of the total allowance for each battery of Garrison Artillery. Guns of position.

275. At stations where 7-in. or 40-pr. R.B.L. guns are alone available for practice besides S.B. ordnance, the following proportions of ammunition will be allowed annually :— Proportions where 7-in. or 40-pr. B.L. and S.B. are alone available.

Nature of Ordnance.	Shell.		Total.
	Common.	Segment.	
7-in. R.B.L.	25	25	50 } 150
S.B.	..	..	100 }
40-pr. R.B.L.	40	35	75 } 150
S.B.	..	..	75 }

276. All Palliser projectiles, and all descriptions of 12·5-in. projectiles, will be fired with battering charges, and all other projectiles will be fired with full or service charges. Charges to be used.

277. All common shells, except the 7-in. R.B.L., 80-pr., and all lighter natures, will be fired without fuzes, or bursting charges, but they will be filled with a mixture of two parts (by measurement) of sand to one of sawdust (this mixture being of about the same specific gravity as gunpowder, Common shells to be fired empty

Clause 255 *continued.*

the shell when filled with it may be regarded as being of the same weight as if it contained a bursting charge). The shells will be plugged with the wood plugs representing time fuzes, the metal plugs being returned to store. In places where firing live shells is permitted, all Shrapnel and segment shells, and all shells for 7-in. R.B.L., 80-pr., and all lighter natures, will be filled and fired as for service. In places where no live shell can be used, common shell will be fired in place of shrapnel or segment, and, in the case of 7-in. R.B.L., 80-pr., and all lighter natures, will be loaded with blowing charges, for which calico bags will be supplied, and properly fuzed.

Filled shells.

Palliser shells to be filled.

278. All Palliser shells will be brought up to their "filled" weight in the same manner as common shells.

Shells firing blowing charges to be filled.

279. All shells fired with blowing charges will be filled with dry coal dust, space only being left for the insertion of the fuze and of the bag containing the blowing charge.

Mortar shells.

280. Fuzes, with blowing charges only, will be supplied for mortar shells.

Coast Brigade.

281. Divisions of the Coast Brigade will have the same proportions as Garrison Batteries, the different detachments participating, as far as possible, in the practice.

Rockets.

282. At home, 20 Hale's rockets will be supplied yearly by the Commandant to each battery which carries out its annual practice at the School of Gunnery, Shoeburyness.

Requisitions for gun ammunition.

282*a*. Demands for ammunition will be made on Army Form G 805, and will be dealt with in the manner laid down for small-arm ammunition. Projectiles condemned *for practice only* being demanded, if there are none on charge.

Dismissal of Recruits.

282*b*. Two rounds with shot or shell, and three of blank ammunition, are allowed for the dismissal of each Recruit, and such ammunition will be applied for, as may from time to time be required, on Army Form G 808.

Gas-checks to be used.

282*c*. Projectiles for which gas-checks have been approved, will invariably be used at station or battery practice with gas-checks, except in the case of guns ordered, on account of scoring, to be used without gas-checks.

Ammunition longest in charge to be first used.

282*d*. The ammunition of oldest manufacture will always be first expended, and will be replaced by the next supply from store. Shells required to be fired plugged, should be taken from the empty shells on charge.

Equipment Regulations (Regular Forces)—*continued.*

Clause 255 *continued.*

282*e*. No spare fuzes will be authorized for practice, but spare friction tubes will be allowed in the proportion of 10 per cent. Spare fuzes and tubes.

282*f*. Calico and paper bags for bursters of shells need not be returned to store at the conclusion of gun practice, but should be shown as expended. Calico and paper bags.

282*g*. Care will be taken that the annual and biennial lacquering of bores, prescribed in Appendix V., paragraph 13, is carried out immediately after the conclusion of the annual and biennial practice. Lacquering bores.

282*h*. Reports on the result of station practice will be rendered, annually, in duplicate, by the Officer Commanding Royal Artillery, through the General Officer Commanding, to the Deputy Adjutant-General, Royal Artillery, Horse Guards, directly after the conclusion of the practice. Station Practice Report.

Instructions for the preparation of Shells and Fuzes for B.L. Guns on the "Interrupted Screw" system.

Clause 257 1. Instructions—

(*d.*) For the preparation of Shells and Fuzes for B.L. guns on the "Interrupted Screw" system,

have been approved, and will be issued to Officers and others concerned.

2. Copies of these Instructions, printed on Army Form G 928, will be posted in Laboratories, and any other buildings in which the operations to which they relate are carried on.
